Professional Summary

Flutter Application Developer with 2+ years of experience developing, deploying, and maintaining cross-platform mobile applications for Android and iOS. Proficient in Flutter, Dart, Riverpod, Provider, Clean Architecture, MVVM, REST API integration, Firebase, local storage, push notifications, Google Maps API, and payment gateway integration. Experienced in independently managing the complete application lifecycle from development and testing to Google Play Store deployment and Apple TestFlight submission.

Technical Skills

Languages:	Dart, Java, SQL
Mobile Development:	Flutter, Android, iOS
State Management:	Riverpod, Provider, BLoC
Architecture:	Clean Architecture, MVVM, Modular Architecture
Backend & APIs:	REST APIs, JSON, Firebase Auth, Firebase Cloud Messaging (FCM), JWT Authentication
Local Storage:	Hive, SQLite, Shared Preferences
Maps & Payments:	Google Maps API, Geolocation, Razorpay, Payment Gateway Integration
Tools:	Git, GitHub, Android Studio, VS Code, Figma
Deployment:	Google Play Store, Apple TestFlight, App Store Connect

Professional Experience

Flutter Application Developer

Jun 2024 – Present

Klix Tech, Chennai

- Developed and maintained 5+ cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Independently managed the complete mobile application lifecycle, including requirement analysis, development, testing, deployment, and post-release support.
- Implemented scalable state management solutions using Riverpod and Provider with Clean Architecture and MVVM principles.
- Integrated RESTful APIs and developed offline-first functionality using Hive, SQLite, and Shared Preferences.
- Configured Firebase Cloud Messaging (FCM) to deliver real-time push notifications across Android and iOS applications.
- Integrated Google Maps API for live location tracking, route visualization, and location-based services.
- Implemented secure authentication workflows and payment gateway integrations for seamless user experiences.
- Optimized application performance through local caching, efficient state management, and reusable components.
- Independently published and maintained applications on Google Play Store and Apple TestFlight.
- Collaborated with backend teams to ensure seamless API integration and issue resolution.

Education

Bachelor of Engineering in Computer Science and Engineering

2021 – 2024

Mepco Schlenk Engineering College, Sivakasi

CGPA: 7/10

Diploma in Computer Engineering

2018 – 2021

MSPVL Polytechnic College, Tenkasi

87%

Certifications

- Udemy – The Complete Flutter Development Bootcamp with Dart
- NPTEL – Operating Systems
- Infosys Springboard – Data Structures and Algorithms, DBMS, Software Engineering
- Google – Fundamentals of Digital Marketing
